

# OLFA ROTARY MAT CARE INSTRUCTIONS

- Use only Rotary Cutters and Blades. Knives with a fixed blade may damage this mat.
- Keep mat flat, never rolled.
- Do not expose to extreme condition. Keep out of direct sunlight. Both cold and heat could cause the mat to crack or become brittle.
- Do not iron.
- Avoid cutting repeatedly in the same spot to avoid excessive wear. For double-sided mats, rotate and flip mat periodically.
- To clean, use lukewarm water with a mild detergent. Avoid harsh chemicals.
